## Upsell Products

Search for products to include them in this rule.

These are typically simple products, which should be single click upsells, e.g. scatter cushions or a basketball upsold to a pair of trainers. These will display near the add to basket button of the Product Detail Page.

You may also need:

**Spalding Basketball**

ADD TO BASKET

“ Made to Order and Bundle products can not be upsells; due to the complexity of these products, they can not be single click adds to basket.

Products with multiple variants are not recommended for Upsells - use Basket Upsells instead.

## Basket Upsells

Search for Variants to include them in this rule. You may also need to setup an Optional Filter.

Field	Purpose
Optional Filter	<i>This limits the rule to apply to certain Variants of Products that meet the rule's criteria, e.g. to only apply this upsell to the 'large' variant of a product, simply enter 'large'</i>

These are Variant to Variant upsells, and are applied to the add to basket pop up. Once an item has been added, the platform knows which Variant has been selected, which allows for dynamic upselling.

A perfect use for this would be upselling a 'double' mattress protector to a customer who has bought a 'double' mattress, or 'size 10' socks to a customer who has bought 'size 10' shoes.
