

Adding Upsells to a Sales Order in the EPoS

The screenshot shows the EPoS interface with a navigation bar at the top containing 'I X O', a home icon, 'Browse', 'Orders', 'Other', and a 'Search Products' input field. The main content area is titled 'Upsells' and features two product cards on the left and a large product image on the right. The first card is for an 'Atlantic Oak High Footend Bedstead' with a price of 'from £220', '68 available', and '+277 available elsewhere', with an 'ADD' button. The second card is for a 'Spalding Basketball' with a price of 'from £1', 'available to order', and '+1000 available elsewhere', with an 'ORDER' button. The large image on the right is a carved jack-o'-lantern pumpkin. A small upward-pointing arrow icon is positioned between the two product cards.
