

Products

- [Swatch Panel](#)

Swatch Panel

The Swatch Preview Panel will display for eCommerce customers, as well as in CMS and POS. This is intended to show a secondary image related to the current selection. This will either present:

- a linked secondary image
- a larger version of the Swatch

Set Up

This must be applied on individual Products; those Products must have multiple images.

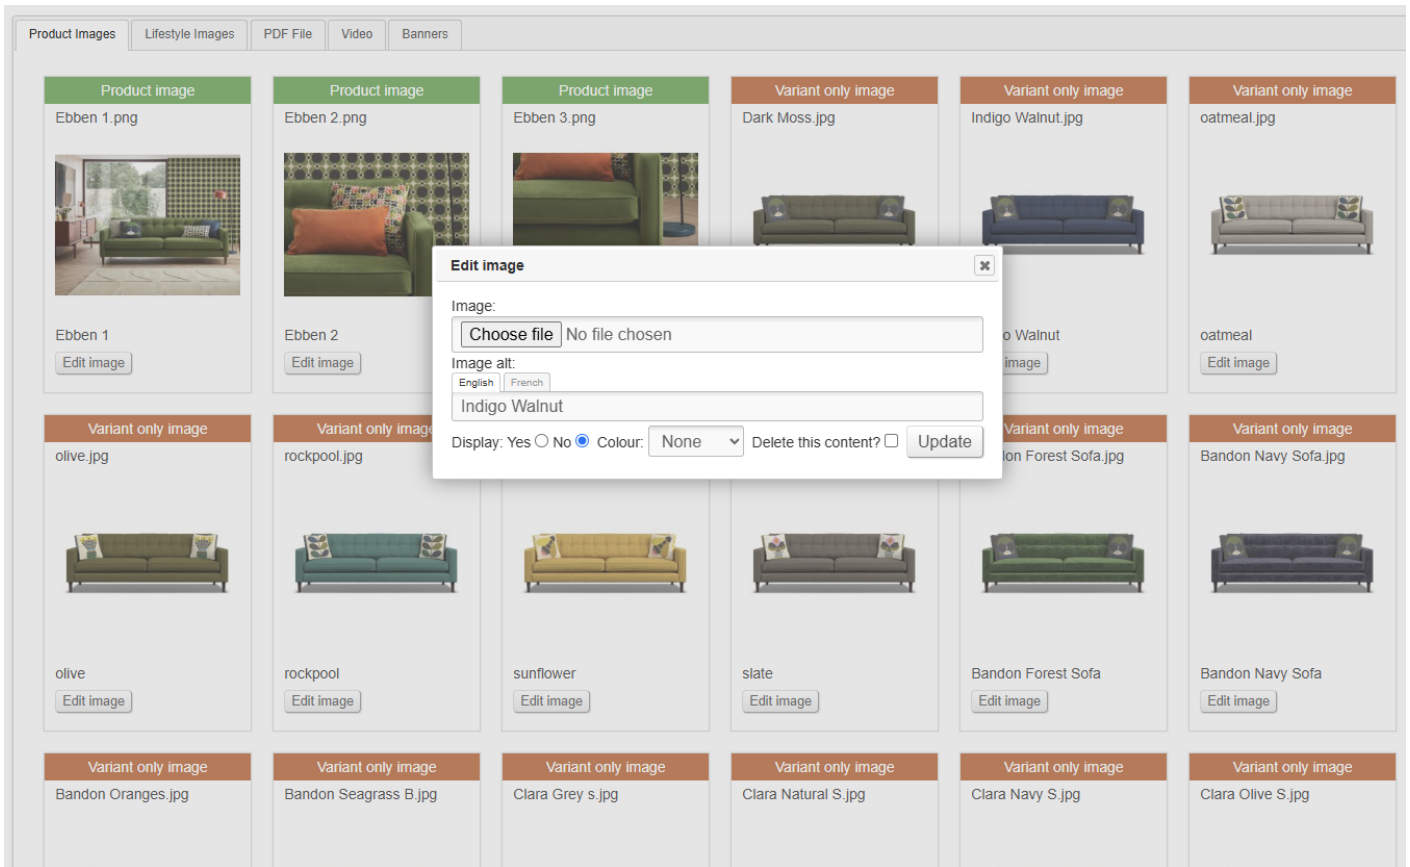

1. Product Tab

Ensure that these are ticked on the [Product Tab](#):

- Use Swatch Wizard ("Made to Order" products only)
- Combine variant and swatch selection if applicable (Applies to "Swatch Wizard" only)
- Show swatch preview panel (Applies to "Swatch Wizard" only)

2. Images

Upload multiple images to the Product using the normal methods. Typically, these should be set as 'Variant only images'.

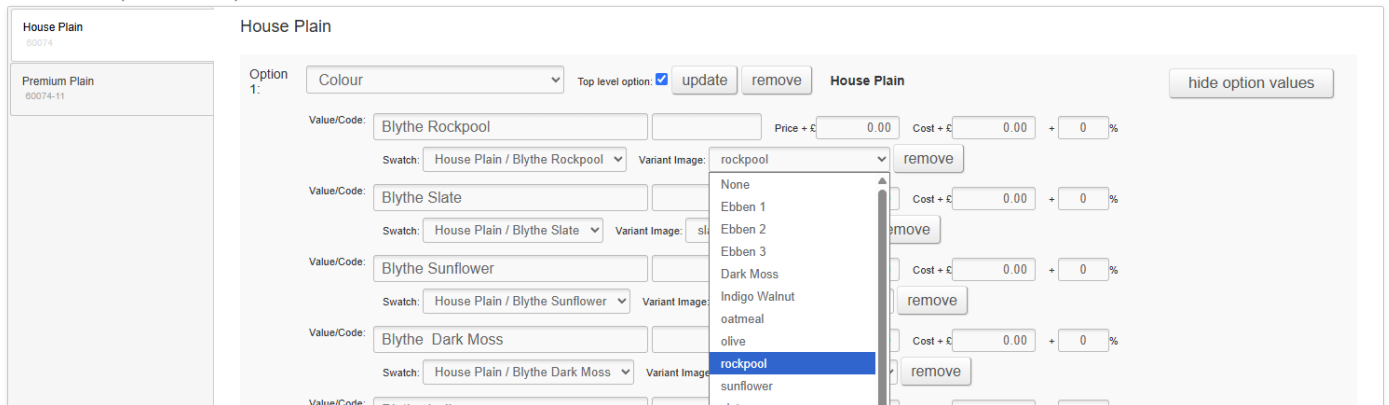

3. Customisations

Link [Customisations](#) to additional images.

Via CMS Dropdowns

Customisation (Made to Order)

Via CSV

The link can also be made via the [Made to Order](#) import.

How it displays

If enabled, and if a secondary image is linked to the Customisation, that secondary image will be shown in a panel on the right hand side of the Swatch Wizard.

If no secondary image is linked, a larger version of the Swatch will be displayed instead.

eCommerce

The example below is taken from a Product where 'Combine Variant and Swatch Selection if Applicable' is set to 'yes'.
