

# Carousel

Use this block to add small images on a swipeable carousel.

There are also other blocks which can be used to add images:

- [Image](#) (simple images)
- [Hero](#) (large rotating banners)
- [Parallax](#) (an image that sits behind content, adding depth to a page)
- [Feature](#) (a styled image)
- [Multi-Feature](#) (multiple static images in a single block)
- [Wide Feature](#) (image with a block of text)

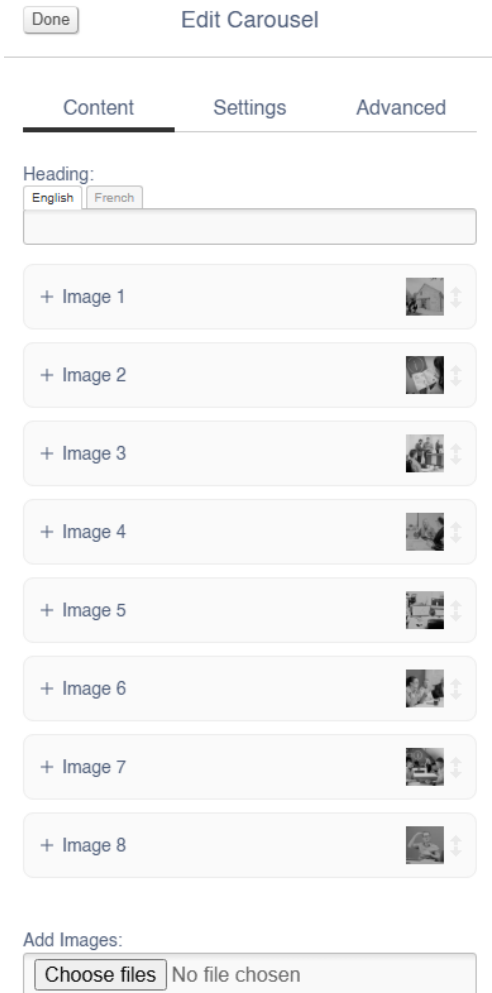

# Appearance

# Editing the Block

## Content

Each image has an expandable menu, allowing it to be edited individually.

Images may be dragged around to resequence them.

Field	Purpose
Link URL	<i>Enter a link URL - if populated, this will add a link to the image</i>
Alt Text	<i>Amend the Alt Text for the image</i>
Summary	<i>Enter text that will be shown below the image</i>
Delete Image	<i>Use the tick box to delete an image - you will be asked to confirm your action</i>

Use the Image dialogue to select images to upload to this block.

## Settings

Block width is not editable for the Hero block - it is always set to 100%.

Field	Purpose
Visibility	<p>Set the block visibility from the list:</p> <ul style="list-style-type: none"> <li>• Default (both)</li> <li>• Desktop Only</li> <li>• Mobile Only</li> <li>• Hidden (none)</li> </ul>
Items Visible	Defines how many images will be visible on page load
Items Visible (mobile)	Defines how many images will be visible on page load when on a mobile device

## Additional Options

Field	Purpose
Mouse Drag	Allow a user to mouse drag/swipe to scoll through the Carousel
Alt Style	Alters the amount of padding between each image within the block
Caption on Right?	Choose to show the Summary text below the image, or to the right of the image
Auto-play	Set the Carousel to auto scroll
Loop?	Set the auto scroll on a loop

# Advanced

## Padding

Adding padding will insert space within the current block; this will adjust the position of content within the block.

More information is available [here](#).

## Margin

The margin will add additional space around the current block.

More information is available [here](#).
