

Parallax

Use this block to add an image that sits behind content, adding depth to a page.

There are also other blocks which can be used to add images:

- [Image](#) (simple images)
- [Carousel](#) (small images on a swipeable carousel)
- [Hero](#) (large rotating banners)
- [Feature](#) (a styled image)
- [Multi-Feature](#) (multiple static images in a single block)
- [Wide Feature](#) (image with a block of text)

Appearance

The screenshot displays the 'Edit Parallax' interface. On the left is a settings sidebar with tabs for 'Content', 'Settings', and 'Advanced'. The 'Content' tab is active, showing fields for 'Heading' (with language options 'English' and 'French'), 'Text', 'Link URL', and 'Link Text'. Below these is an 'Image' section with a 'Choose file' button and a note: '* recommended size is 1920 pixels wide'. A small thumbnail of the selected image is shown below. The main preview area on the right shows a large background image of a modern office interior. Overlaid on this image is the text 'Parallax Heading' in a large, white, sans-serif font. Below the heading is a smaller line of text: 'Add text and a link to this interesting visual feature'. At the bottom center of the text area is a small, white button with the text 'LEARN MORE'.

Editing the Block

Content

Field	Purpose
Heading	<i>Enter a short block title - this will show above the main content of the block</i>
Text	<i>This is the main content of the block. Use the controls to format your text</i> <i>It will appear as a caption, below the image</i>
Link	<i>Enter a link URL - if populated, this will add a link to the image.</i>
Link Text	<i>Text to be shown with a button, if a link is set</i> <i>If left blank, the whole image will act as a button</i>
Delete Image	<i>Use the tick box to delete an image - you will be asked to confirm your action</i>

Use the Image dialogue to select images to upload to this block.

Settings

Field	Purpose
Block Width	<i>Choose from:</i> <ul style="list-style-type: none">• 25%• 33%• 50%• 66%• 75%• 100%• Full Width (set to always be the full width of the user's device)
Visibility	<i>Set the block visibility from the list:</i> <ul style="list-style-type: none">• Default (both)• Desktop Only• Mobile Only• Hidden (none)

Field	Purpose
Text Position	<p>Alter the alignment of the block text:</p> <ul style="list-style-type: none"> • Left • Central • Right
Text Colour	<p>Choose from:</p> <ul style="list-style-type: none"> • Auto (will select a high contrast automatically) • Black • White

Additional Options

Field	Purpose
Full Screen	Toggle a large or small version of the parallax image
Box?	Toggle a box to surround the text
Filter?	<p>Toggle a filter on the image, which will make it darker if applied</p> <p>This should be used to ensure high contrast between the image and overlaid text</p>

Advanced

Padding

Adding padding will insert space within the current block; this will adjust the position of content within the block.

More information is available [here](#).

Margin

The margin will add additional space around the current block.

More information is available [here](#).
