

Products

Use this to insert blocks of Products onto your page.

This will add live products to your page, so if any product data is updated, this page will also be automatically updated.

Disabled products are not shown within the block; add automated products to fill any gaps (see below for more details)

Appearance

The screenshot shows the 'Edit Products' interface for a 'Product Block - Carousel'. The interface is divided into a left sidebar with settings and a main preview area. The sidebar includes sections for 'Content', 'Settings', and 'Advanced'. The 'Content' section has a heading field, a search product field, and a list of product categories with checkboxes. The 'Settings' section has dropdowns for 'Selected category' and 'Selected brand', and text fields for 'Link URL' and 'Link Text'. The main preview area shows a carousel of six product cards. Each card features a product image, a title, a price, and a 'Retail Price Label'. The products are: Big red apple (with upsells), Pomegranate (variants as list), Happy Fruits (Simple Bundle), Pineapple (standard variants), Citrus Fruit (variant images), and Strawberry (single variant). The 'Big red apple' card has a 'Best Seller' badge and a 'Retail Price Label' showing a sale price of £18.49. The 'Pomegranate' card has a price of 'from £0.20'. The 'Happy Fruits' card has a price of '£7.60'. The 'Pineapple' card has a price of 'from £1.00'. The 'Citrus Fruit' card has a price of '£5.00'. The 'Strawberry' card has a 'Special Offer' badge and a price of 'from £7.00'. The interface also includes a 'Done' button, a 'This is a draft version. Publish to make this live.' notification, and 'Copy' and 'Delete' buttons for the carousel.

Content

Field	Purpose
Heading	Enter a short block title - this will show above the main content of the block

Advanced

Padding

Adding padding will insert space within the current block; this will adjust the position of content within the block.

More information is available [here](#).

Margin

The margin will add additional space around the current block.

More information is available [here](#).
