Link Text	<p>Enter link text - if populated, this will change the text in a call to action below the content of the block</p> <p>The position of this button can be controlled with the 'Link Position' control</p> <p>If left blank, the button will read 'More'</p>

Settings

Field	Purpose
Block Width	<p>Choose from:</p> <ul style="list-style-type: none"> • 25% • 33% • 50% • 66% • 75% • 100% • Full Width (set to always be the full width of the user's device)
Visibility	<p>Set the block visibility from the list:</p> <ul style="list-style-type: none"> • Default (both) • Desktop Only • Mobile Only • Hidden (none)
Heading Position	<p>Alter the alignment of the block header:</p> <ul style="list-style-type: none"> • Left • Central • Right
Link Position	<p>Alter the alignment of the link button:</p> <ul style="list-style-type: none"> • Left • Central • Right

Additional Options

Field	Purpose
Collapsible	<div>If set to yes, the whole Text block will be set as collapsible (see below)</div> <div><div><div>+</div>Make your text blocks collapsible</div><div><div>—</div>Make your text blocks collapsible</div><div>To then display more text when expanded!</div><div><div>+</div>Make your text blocks collapsible</div></div>

Advanced

Padding

Adding padding will insert space within the current block; this will adjust the position of content within the block.

More information is available [here](#).

Margin

The margin will add additional space around the current block.

More information is available [here](#).
