

Wide-Feature

Use this block to add image with a block of text.

There are also other blocks which can be used to add images:

- [Image](#) (simple images)
- [Carousel](#) (small images on a swipeable carousel)
- [Hero](#) (large rotating banners)
- [Parallax](#) (an image that sits behind content, adding depth to a page)
- [Feature](#) (a styled image)
- [Multi-Feature](#) (multiple static images in a single block)

Appearance

The screenshot displays the WordPress editor interface for a 'Wide-Feature' block. On the left, the 'Content' tab is active, showing fields for 'Heading' (set to 'Wide Feature Block'), 'Link URL' (set to '/iconography'), and 'Link Text' (set to 'Find out more'). Below these is an 'Image' field with a 'Choose file' button and a note that the recommended size is 1540 pixels wide. A small preview of the block is shown at the bottom left. The main editor area shows a preview of the block with a background pattern of small circles. The preview includes a large orange 'I' logo, the text 'INTUS Trade', and a 'FIND OUT MORE' button. On the right side of the preview, there is a 'Wide Feature Block' description: 'Combine an image and text into one block here, with the option for a background colour for the text.' At the bottom right of the preview, there are 'Copy' and 'Delete' buttons. The top of the editor shows 'Done Edit Wide-Feature' and a notification that 'This is a draft version. Publish to make this live.'

Editing the Block

Content

Field	Purpose
Heading	<i>Enter a short title - this will be output as a text overlay, on top of the image</i>
Additional Text	<i>Enter some short text - this will be output as a text overlay, on top of the image below the title</i>
Link URL	<i>Enter a link URL - if populated, this will add a link to the image.</i>
Link Text	<i>Text to be shown with a button, if a link is set</i> <i>If left blank, the whole image will act as a button</i>
Delete This Image?	<i>Use this control to delete an image</i>

Use the Image dialogue to select images to upload to this block.

Settings

Field	Purpose
Block Width	<i>Choose from:</i> <ul style="list-style-type: none">• 25%• 33%• 50%• 66%• 75%• 100%• Full Width (set to always be the full width of the user's device)
Visibility	<i>Set the block visibility from the list:</i> <ul style="list-style-type: none">• Default (both)• Desktop Only• Mobile Only• Hidden (none)
Background colour	<i>Choose a background colour for your image</i> <i>Choose from recommended colours, or use a colour picker</i>

Additional Options

These options allow you to auto assign Products to Hero Images, without assigning specific Products.

Field	Purpose
Invert text colour	<i>Toggle to invert the text colour</i>
Do not crop to fit	<i>Toggle to retain the aspect ratio of the image uploaded</i>
Reverse layout	<i>swap the position of the image and the text</i>

Advanced

Padding

Adding padding will insert space within the current block; this will adjust the position of content within the block.

More information is available [here](#).

Margin

The margin will add additional space around the current block.

More information is available [here](#).
