Swatch Wizard

If enabled on the Product tab when editing a Product, Customisations (MTO options) will be presented to the Customer in a pop up on the website.

Favourite Swatches will be shown with a star; these will also be highlighted on the [Product Listing Page](#).

The Swatch Preview Panel (secondary image to the right) may also be controlled by linking Variant Images to individual [Customisations](#).

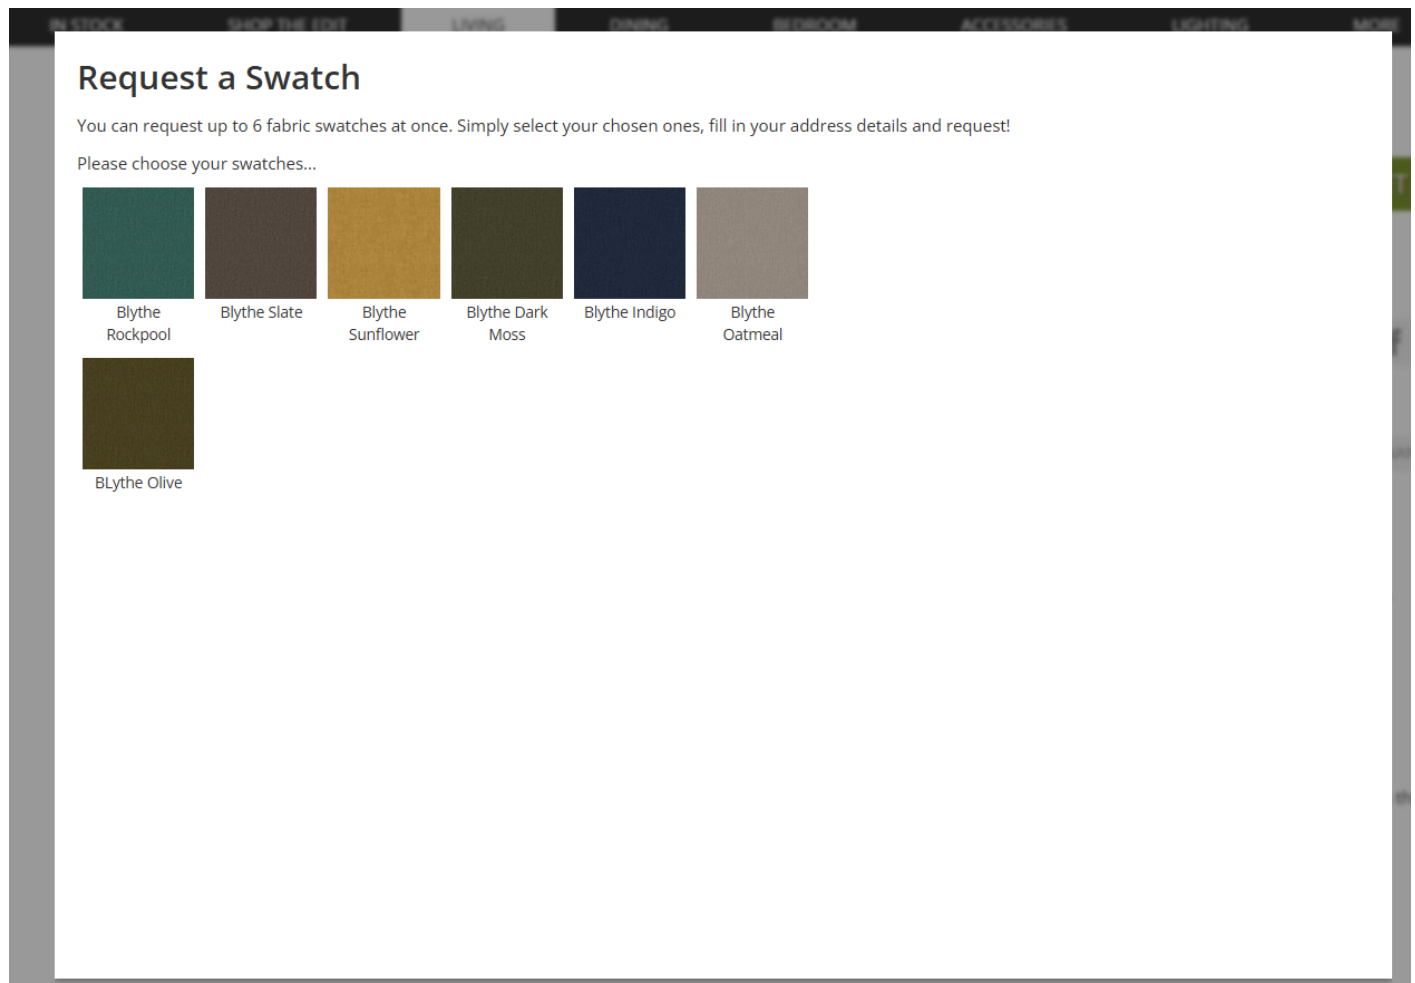

Swatch Request Popup

This is an option that can be enabled on the Product tab when editing a Product in the CMS.

This will trigger a popup on the Product Detail Page, where a customer can request swatches.

These swatches will be Customisations linked to Swatch, if that Swatch has been appropriately enabled.

This will generate an email enquiry.

Banners (PDP)

Here is an example of where Banners will output on the Product Detail Pages.

The screenshot displays a Product Detail Page (PDP) for a 'Vintage Taupe Pu Chair with Metal Leg'. The page layout includes a top navigation bar with a search bar, language/currency selectors (EN, FR, £, €, \$), and utility icons (mail, location, heart, person, basket). Below the navigation is a dark bar with category links: IN STOCK, SHOP THE EDIT, LIVING, DINING, BEDROOM, ACCESSORIES, LIGHTING, and MORE. A secondary bar shows 'INTUS Business', 'XTRO eCommerce', and 'OMNIS Retail'.

The main content area features a large grey banner at the top with the text 'Full Width Banner'. Below this is a breadcrumb trail: Home > Products > Dining Room > Dining Chairs > Vintage Taupe Pu Chair with Metal Leg.

The product image is a large, central photograph of a dark brown leather chair with a metal leg. To the left of the main image is a vertical column of five smaller thumbnail images showing different views of the chair. Below the main image is a grey banner with the text 'Example Medium Banner'.

On the right side of the page, there is a product information section. It starts with a grey banner labeled 'Example Small Banner'. Below it, the product title 'Vintage Taupe Pu Chair with Metal Leg' is displayed, followed by a 'Write the first review' link and the brand name 'Keston House'. The dimensions '(H) 87cm x (W) 45cm x (D) 56cm' are listed. The price is shown as '£185' with a green checkmark and the text 'Available'. A quantity selector is set to '1', and a green 'ADD TO BASKET' button is present.

Below the product information is a section titled 'Related items in this collection...' which lists four other chair models, each with a small thumbnail, the product name, and the price '£185':

- Vintage Beige Pu Chair with Metal Leg £185
- Vintage Black Pu Chair with Metal Leg £185
- Vintage Blue Pu Chair with Metal Leg £185
- Vintage Cognac Pu Chair with Metal Leg £185

Tab 1 - Custom Tab

Custom tabs are useful for adding content that isn't needed in the description and also a good way to reduce scrolling in smaller devices.

You can break information down into segments and amend the title of the tab to make it accessible for the user, for instance ?Specification? or ?Projection details?. The system will automatically include a ?Features tab? for products that have attributes and sizing measurements.
