Search Suggestions

- Summary

Summary

Enter Search Suggestions which will display to the customer when they make a search on the website.

> For optimal function, use this in conjunction with Search Overrides.

Setup

Search Phrase

Field	Purpose
Search phrase	*The string searched for by the customer*
Synonyms	*Words that products are named instead of the search phrase, comma separated, e.g. "tv unit, tv cabinet" for "tv stand"* *When synonyms are searched for, site search will treat the search as for the primary Search Phrase*
Use synonyms	*Toggle to yes to enable synonyms*

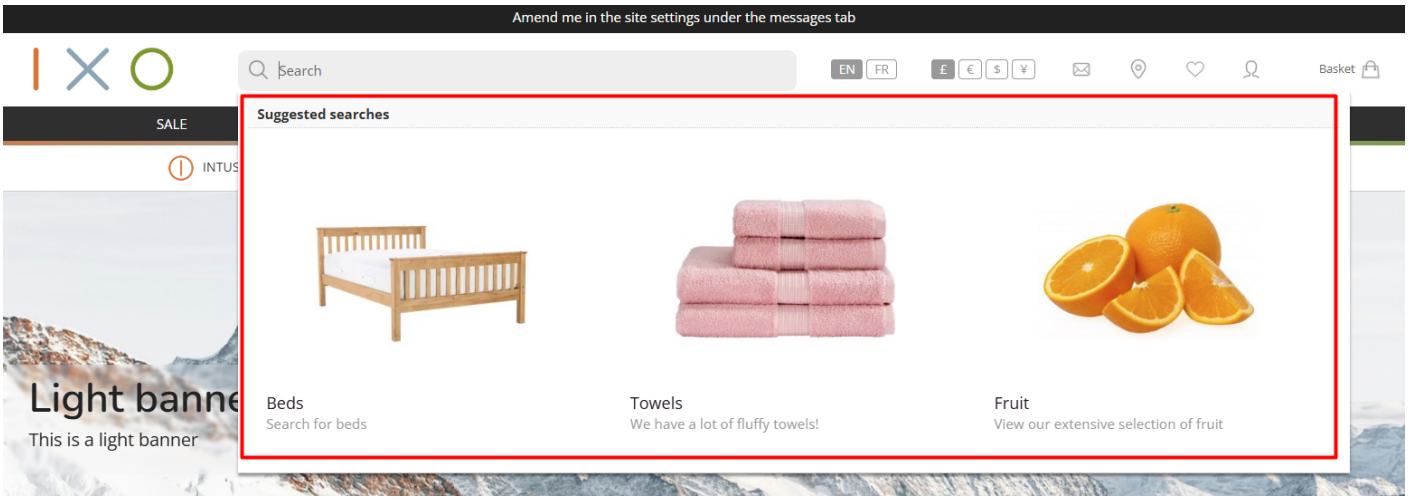

Default suggestion

These fields are optional - if left blank, Search Suggestions will solely be used for synonyms.

Field	Purpose
Search title	*Primary label, displays to the customer*
Search sumamry	*Secondary label, displays to the customer*
Image	*Image that appears in the Search Recommendations drop down*
Use as default suggestion	*If toggled to 'yes' will show as a drop down when site search is used*

How it displays

These will appear when a user clicks into the search bar.
