

# Swatch Groups

Swatches are used to add [Customisation](#) to individual Products. These will display to the customer on the website and in the POS, as well as when adding [Purchase Orders](#) and managing [Sales Orders](#) in the CMS.

This screen will display your Swatch Groups, as well as highlighting how many products are linked to those Swatch Groups.

## Key to icons

-  = edit swatch group
-  = delete swatch group
-  = view/add swatches within group
-  = assign swatches to Products

## Setup

“ You must setup a Swatch Group before you can create [Swatches](#).

Field	Purpose
Swatch Group name	<i>This is used as a label for the Swatch Group</i>
Associated Brand	<i>This field is required when using the Assignment Screen</i>
Request a Swatch	<i>Enable this Swatch Group for the <a href="#">Request a Swatch</a> feature</i>
